Maple Crossing — Investment/Sales Offering Memorandum

Retail asset, Columbus, OH | Evaluation date 2026-08-31 | Original fictional evaluation material

Executive Summary

Source-backed analysis. Assumptions remain subject to diligence.

Maple Crossing is a 10-suite retail property in Columbus, OH comprising 32,150 SF across Small (Group A), Standard (Group B) and Large (Group C) suites. As of 2026-08-31, nine suites totaling 29,070 SF are physically occupied; Suite 010 is vacant. The manager's cover note reports 9 of 10 'leased' by including pending occupants; the certified rent roll controls physical occupancy. All active leases expire 2029-08-31, providing four-year term with no active near-term rollover.

Underwriting follows the acquisition instructions verbatim: all-suite pre-amendment scheduled monthly rent × 12 as gross potential rent ($818,700), 5% economic loss, $350/unit other income, plus specified tax, insurance, other opex, 3% management and $300/unit replacement reserves. Capitalizing NOI before reserves ($528,420) at 6.7500% produces an as-is value of $7,828,449. Debt sizing at the greater of the 6.5000% note and 6.00% floor (i.e., 6.5000%) is LTV-bound at $5,088,492 (DSCR test permits $5,541,812; debt-yield test permits $5,838,003).

Net cash-out after 1% origination fee ($50,885), $45,000 closing costs and existing payoff of $4,300,000 is approximately $692,607. Asking price, photos, market comps and sponsor history are not supplied and are not manufactured.

Property & Suite Mix

Ten in-line retail suites totaling 32,150 SF. Group mapping per manager: A = Small (3,080 SF), B = Standard (3,200 SF), C = Large (3,410 SF).

Group	Suite type	Units	Occupied	Area SF/unit
A	Small	4	3	3080
B	Standard	3	3	3200
C	Large	3	3	3410
Total	-	10	9	32,150 SF total

Lease & Occupancy Analysis

Physical occupancy per certified roll: 9 units / 10 units = 90.0%. Occupied area = 29,070 / 32,150 SF = 90.4%. Manager's headline of '9 of 10 leased' includes pending occupants who have not taken possession; this is a definitional issue, not a physical occupancy count.

Suite 001 amendment (both parties executed 2026-07-20, effective 2026-08-01) raises monthly base rent by $350 to $7,000. The amendment controls; the pre-amendment $6,650 in the certified roll and lease excerpt is superseded for in-place economics. In-place annualized contractual rent from the nine active suites (post-amendment) = $743,100.

No lease expiration falls within 12 months of the 2026-08-31 evaluation date; the earliest expiry is 2029-08-31. No free-rent concession applies. No unsigned rent proposal was found in the packet.

Historical vs. Underwritten Financials

Historical is a T12 cash operating statement (2025-09-01 through 2026-08-31); collections are not an annualized rent-roll. The reported roof replacement was a capital item booked to repairs at $0 in the T12, so no capital-in-opex overstatement is present. Underwriting uses prescribed line items (not the T12 collections).

Line	T12 actual	Underwriting
Revenue / Collections	$736,830	GPR $818,700 + Other $3,500 = $822,200
Economic loss (5%)	n/a	$(41,110)
EGI	n/a	$781,090
Real estate tax	$(85,964)	$(85,964)
Insurance expense	$(28,655)	$(28,655)
Other recurring opex	$(114,618)	$(114,618)
Management (3% EGI)	n/a	$(23,433)
NOI (before reserves)	$507,593 (reported)	$528,420
Replacement reserves ($300/unit)	n/a	$(3,000)
NCF (after reserves)	n/a	$525,420

Debt Sizing & Sources / Uses

Sizing rate = MAX(6.5000% note, 6.00% floor) = 6.5000%. 30-year monthly amortization yields annual DS per $1 of principal ≈ 0.075848.

Constraint values: LTV @ 65% × $7,828,449 = $5,088,492; DSCR-bound (NCF / (1.25 × DS)) = $5,541,812; DY-bound (NCF / 9%) = $5,838,003. Maximum loan = LTV-bound = $5,088,492.

Sources / Uses	Amount
Loan proceeds	$5,088,492

Sources / Uses	Amount
Existing payoff	$(4,300,000)
Origination fee 1%	$(50,885)
Closing costs	$(45,000)
Net cash-out (positive = to sponsor)	$692,607

Risks & Missing Diligence

Pending-in-occupancy: PRESENT. Manager conflates pending occupants with physically occupied suites (9/10 leased headline).

Near-term rollover: ABSENT. All nine active suites expire 2029-08-31, well beyond the 12-month horizon.

Missing insurance: ABSENT. GL policy in force through 2027-06-30 with $2,000,000 aggregate limit.

Capital-in-opex classification: ABSENT. Roof replacement recorded at $0 within repairs; explicitly labeled capital in the operating statement.

Unsigned rent change: ABSENT. The Suite 001 rent change is a signed amendment (executed 2026-07-20); no unsigned proposal is in the packet.

Temporary free rent: ABSENT. Lease excerpt states no free-rent concession applies at the evaluation date.

Sizing-floor binding: ABSENT. Note rate 6.5000% exceeds the 6.00% floor, so the note rate binds.

Refinance shortfall: ABSENT at the sized loan. Loan proceeds of $5,088,492 fully repay the $4,300,000 payoff plus fees and generate positive net cash-out of $692,607.

Diligence gaps (routine, not defects): legal, environmental, property condition, title reviews are pending; no market rent/sale comps, photos, asking price or sponsor history supplied.
