

Falcon Distribution | Revision instruction

As of September 1, 2026 the attached revised certified roll supersedes the prior roll. Suite 002 is now active and its scheduled monthly rent has increased by \$225. All other lease details remain unchanged. Prior executed Suite 001 amendments continue to apply.

Increase the INITIAL SIZING RATE by 75 basis points and the capitalization rate by 25 basis points. Use the new roll for all-unit scheduled gross potential. All other underwriting rules and payoff remain unchanged. Update the existing underwriting workbook, OM, reconciled facts and risk table. Preserve the approved copy exactly; identify what changed.
