

Beacon Plaza — Investment / Sales Offering Memorandum (Revised)

Revised 2026-09-01 · Charlotte, NC office asset · Original fictional evaluation material

Revision Summary

Source-backed analysis. Assumptions remain subject to diligence.

This revision incorporates the 2026-09-01 revised certified rent roll and the revision notice. Three inputs change relative to the prior OM: (1) Suite 010 moves from pending to active with monthly rent increased by \$225 to \$11,275; (2) the initial sizing rate rises 75 bps (note rate 6.7500% + 0.75% = 7.5000%, above the 6.00% floor); (3) the capitalization rate rises 25 bps to 7.7500%. All other underwriting rules, expense amounts, loan constraints, payoff, closing costs, and origination fee are unchanged.

Net effect: physical occupancy improves to 10/12 (the pending-in-occupancy risk is resolved). Gross potential rises to \$1,621,500 and UW NOI to \$1,044,819 before reserves, but the higher cap and sizing rates reduce capitalization value to \$13,481,530 and reduce maximum loan (still LTV-binding) to \$8,088,918. Net cash-out declines from \$1,710,258 to \$1,463,029.

Risks & Missing Diligence

Present: near-term rollover (Suite 001, 2027-02-28).

Resolved / absent: pending-in-occupancy (Suite 010 is now active on the controlling roll); capital in opex (roof correctly capitalized); unsigned rent change (none in packet); temporary free rent (none); sizing floor binding (revised sizing 7.5000% exceeds 6.0000% floor); missing insurance (policy on file); refinance shortfall (net cash-out positive at \$1,463,029).

Missing diligence unchanged: legal, environmental, PCA and title pending; no asking price, comps, photos or sponsor history supplied.
