Executive Summary

Maple Crossing is a 10-suite retail property in Columbus, OH comprising 32,150 SF across Small (A), Standard (B) and Large (C) suites. As of the revised roll (2026-09-01), nine suites totaling 29,070 SF are physically occupied; Suite 010 vacant. All active leases expire 2029-08-31; no near-term rollover.

Revised underwriting: GPR \$821,400 (all-suite revised scheduled monthly rent x 12) + \$3,500 other income; less 5% economic loss = EGI \$783,655. NOI (before reserves) = \$530,908; NCF = \$527,908. Capitalized at 7.0000% -> value \$7,584,405 (vs. \$7,828,449 prior; the higher cap rate outweighs the modest NOI lift).

Debt sizing at 7.2500% (revised initial rate > 6.00% floor): LTV-bound at \$4,929,863; DSCR-bound \$5,159,061; DY-bound \$5,865,648. Maximum loan = \$4,929,863 (LTV binds). Net cash-out = \$535,565 after \$4,300,000 payoff, \$49,299 origination fee and \$45,000 closing costs (vs. \$692,607 prior).

Property & Suite Mix (unchanged)

Ten in-line retail suites totaling 32,150 SF. Manager group mapping: A = Small (3,080 SF), B = Standard (3,200 SF), C = Large (3,410 SF).

Group	Suite type	Units	Occupied	Area SF/unit
A	Small	4	3	3080
B	Standard	3	3	3200

Group	Suite type	Units	Occupied	Area SF/unit
C	Large	3	3	3410
Total	-	10	9	32,150 SF total

Lease & Occupancy Analysis

Physical occupancy 9/10 units (90.0%); 29,070/32,150 SF (90.4%). Manager 9-of-10 leased headline still conflates pending occupants with physical occupancy.

Suite 001 amendment (executed 2026-07-20, effective 2026-08-01) continues to control: \$7,000/mo. Suite 002 revised roll rent now \$7,025/mo (per revision notice). In-place annualized contractual rent from the nine active suites = \$745,800 $((7,000+7,025+7,075+6,650+6,800+7,075+6,650+6,800+7,075) \times 12)$.

No lease expiration falls within 12 months of the 2026-09-01 evaluation date; earliest expiry 2029-08-31. No free-rent concession. No unsigned rent proposal in the packet.

T12 operating statement covers 2025-09-01 to 2026-08-31; not annualized rent-roll. Roof replacement is capital (booked \$0 in repairs); no capital-in-opex misclassification.
