

Maple Crossing — Investment / Sales Offering Memorandum

Retail suites, Columbus, OH | Analysis date 2026-08-31 | Original fictional evaluation material; no real transaction

Executive Summary

Source-backed analysis. Assumptions remain subject to diligence.

Maple Crossing is a ten-suite retail property in Columbus, Ohio, comprising 32,150 rentable square feet across three suite groups (Group A / Small, Group B / Standard, Group C / Large). As of the controlling certified rent roll dated 2026-08-31, nine suites totaling 29,070 SF are in physical occupancy and Suite 010 (3,080 SF, Group A) is vacant, producing 90.00% unit occupancy and 90.42% area occupancy. All nine active leases expire 2029-08-31, so there is no lease rollover inside the next twelve months.

Underwritten on the conventions supplied in the acquisition analysis instructions, the property generates \$781,265 of effective gross income, \$528,590 of NOI before reserves and \$525,590 of net cash flow after a \$300-per-suite replacement reserve. Capitalized at 6.7500%, NOI before reserves supports a value indication of \$7,830,964. Debt sizing across the three tests produces a maximum loan of \$5,090,126, constrained by the 65.00% LTV test; after a 1% origination fee, \$45,000 of closing costs and repayment of the \$4,300,000 existing loan, net cash-out to the sponsor is \$694,225.

No asking price, photographs, market sales or rent comparables, appraisal, tenant credit files or sponsor track record are contained in the packet. Those items are explicitly unknown and are not estimated anywhere in this memorandum.

In-place contractual rent differs from the prescribed underwriting gross potential. A signed amendment for Suite 001 (executed 2026-07-20, effective 2026-08-01) raises that suite's monthly rent by \$350 to \$7,000, so annual in-place rent for occupied suites is \$743,100. Per instruction, the stabilized gross potential assumption uses the certified roll's scheduled rent before the amendment (\$68,225 per month for all ten suites, \$818,700 annually).

Property and Suite Mix

The suite mix and controlling status detail below are taken from rent-roll-certified.xlsx (Rent Roll, rows 5-14). The manager's group mapping is A = Small suite, B = Standard suite, C = Large suite.

Group	Suite type	Suites	Occupied	Area SF	Roll rent / mo (each)
A	Small suite	4	3	12,320	6,650
B	Standard suite	3	3	9,600	6,800
C	Large suite	3	3	10,230	7,075

Group	Suite type	Suites	Occupied	Area SF	Roll rent / mo (each)
Total	All suites	10	9	32,150	68,225 (aggregate)

Lease and Occupancy Analysis

Nine of ten suites are in possession; Suite 010 is vacant. The manager's cover note headlines 9 of 10 as leased by counting occupied plus pending occupants, and discloses that pending occupants have not taken possession. The certified detail, which controls physical occupancy, records no suite in a pending-possession status, so the headline coincides numerically with the nine physically occupied suites. The methodology itself remains a disclosed occupancy-overstatement practice and should be monitored in future reporting.

A stale rent roll dated 2026-06-30 is also in the packet showing lower scheduled rents (for example Suite 001 at \$6,575). This conflict is resolved by date: the 2026-08-31 certified roll is contemporaneous and controls; the archive roll is excluded from underwriting.

Suite 001's executed lease sets base rent at \$6,650 per month on 3,080 SF with a \$13,300 security deposit and no free-rent concession as of the evaluation date. The signed amendment in the correspondence file increases that rent by \$350 per month with all other terms unchanged, making in-place rent \$7,000 per month. There is no unsigned rent proposal in the packet.

Metric	Value	Source
Total suites	10	rent-roll-certified.xlsx A5:A14
Occupied (possession taken)	9	rent-roll-certified.xlsx D5:D14
Pending, no possession	0	rent-roll-certified.xlsx D5:D14
Vacant	1 (Suite 010)	rent-roll-certified.xlsx D14
Unit occupancy	0.9000	9 / 10
Area occupancy	0.9042	29,070 / 32,150 SF
Annual in-place rent (occupied)	\$743,100	(\$61,575 + \$350) x 12
Suite 001 in-place monthly rent	\$7,000	\$6,650 + \$350 signed amendment
Earliest lease expiration	2029-08-31	rent-roll-certified.xlsx F5:F14

Historical versus Underwritten Financials

The trailing twelve months ended 2026-08-31 is a cash statement of actual collections and does not annualize the rent roll. Reported T12 NOI of \$507,593 excludes a management fee and replacement reserves. The roof replacement is a capital improvement and is carried at \$0 in the repairs line, so no capital cost is embedded in

the reported operating expenses. Underwritten NOI is \$20,997 above reported T12 NOI, driven by the prescribed stabilized gross potential and \$350-per-suite other income, partly offset by the 5% economic loss and the 3% management fee.

Reimbursement income is already embedded in the prescribed income assumptions and is not added a second time.

Line	T12 actual (9/1/25-8/31/26)	Underwritten	Note
Rental and ancillary collections / GPR	\$736,830	\$818,700	UW = certified roll scheduled rent x 12, pre-amendment
Economic loss (5%)	n/a	(\$40,935)	Prescribed stabilized assumption
Other income (\$350/suite)	included in collections	\$3,500	10 suites
Effective gross income	\$736,830	\$781,265	
Real estate taxes	(\$85,964)	(\$85,964)	
Insurance expense	(\$28,655)	(\$28,655)	Expense, not the \$2,000,000 policy limit
Other recurring operating expenses	(\$114,618)	(\$114,618)	
Management fee (3% of EGI)	not charged	(\$23,438)	UW convention
Roof replacement booked in repairs	\$0	\$0	Capital item; excluded from opex
Total operating expenses	(\$229,237)	(\$252,675)	Before reserves
NOI before reserves	\$507,593 (reported)	\$528,590	
Replacement reserves (\$300/suite)	n/a	(\$3,000)	
Net cash flow after reserves	n/a	\$525,590	Basis for DSCR and debt yield

Valuation, Debt Sizing and Sources / Uses

NOI before reserves is capitalized at 6.7500%, giving a value indication of \$7,830,964. This is an income-approach indication only; no appraisal, asking price or sales comparables are supplied.

Sizing uses the greater of the 6.5000% note rate and the 6.00% underwriting floor, i.e. 6.5000%, on a 30-year monthly amortization schedule, notwithstanding the first 24 months of interest-only payments. The LTV test

binds.

At the \$5,090,126 maximum loan, annual debt service is \$386,077, NCF DSCR is 1.3613x and NCF debt yield is 10.33%, both comfortably above minimums, confirming that value (LTV) rather than cash flow is the constraint.

Test / item	Amount	Detail
Capitalized value	\$7,830,964	\$528,590 / 6.7500%
LTV limit (65.00%)	\$5,090,126	binding
DSCR limit (1.25x on NCF)	\$5,543,602	\$525,590 / 1.25 / 12 / monthly factor 0.00632068
Debt yield limit (9% on NCF)	\$5,839,889	\$525,590 / 9%
Maximum loan	\$5,090,126	lesser of the three tests
Source: loan proceeds	\$5,090,126	
Use: existing loan payoff	(\$4,300,000)	
Use: origination fee (1%)	(\$50,901)	
Use: closing costs	(\$45,000)	
Net cash-out to sponsor	\$694,225	positive; no additional equity required

Risks and Missing Diligence

Each risk below is assessed independently against the packet. Known source conflicts are resolved and explained rather than left open.

Risk	Status	Basis
Pending units counted in occupancy	present	manager-cover.pdf p1 headlines occupied plus pending as leased although pending occupants lack possession; certified roll shows zero pending suites, so the numeric effect on this analysis is nil
Near-term rollover (next 12 months)	absent	all active expiries 2029-08-31
Missing insurance evidence	absent	insurance.pdf p1 policy declaration in packet, term 7/1/2026-6/30/2027
Capital cost classified in operating expenses	absent	operating-statement.pdf p1 shows roof replacement in repairs at \$0 and confirms it is capital

Risk	Status	Basis
Unsigned rent change relied upon	absent	only a fully executed amendment (both parties 2026-07-20) is in the packet
Temporary free rent	absent	lease-001.pdf p1: no free-rent concession as of the evaluation date
Underwriting rate floor binding	absent	note rate 6.5000% exceeds the 6.00% floor; sizing rate is the note rate
Refinance shortfall	absent	net cash-out is positive \$694,225 after payoff and costs

Missing Diligence and Unknowns

Legal, environmental, property condition and title reviews are not complete. These are routine outstanding items; no contamination, litigation, fraud or structural failure is evidenced or alleged.

Explicitly unknown, not zero: asking price, photographs, market sales and rent comparables, appraisal, sponsor history and credentials, tenant financial statements, monthly T12 detail, tenant improvement / leasing commission budgets, and any capital plan for Suite 010 re-tenanting.

Concentration should also be noted: a single vacant Group A suite and coterminous 2029 expirations create a lumpy rollover profile beyond the twelve-month horizon.

Source Notes

All figures trace to the supplied packet only. No external data was used.

rent-roll-certified.xlsx (Rent Roll, A2 date; A5:F14 detail) — controlling roll as of 2026-08-31: 10 suites, 9 active, 1 vacant, 32,150 SF, \$68,225 aggregate monthly scheduled rent.
