

Maple Crossing — Investment / Sales Offering Memorandum (Revised)

Retail suites, Columbus, OH | Revision 2 per revision notice | Controlling rent roll as of 2026-09-01 | Original fictional evaluation material; no real transaction

Executive Summary

Source-backed analysis. Assumptions remain subject to diligence.

This revision applies the revision notice and the revised certified rent roll dated 2026-09-01, which supersedes the 2026-08-31 certified roll. Three items changed: Suite 002 is confirmed active with scheduled monthly rent increased by \$225 to \$7,025; the initial sizing rate is increased by 75 basis points to 7.2500%; and the capitalization rate is increased by 25 basis points to 7.0000%. All other lease details, underwriting rules, expense inputs, loan constraints, fees and the \$4,300,000 payoff remain unchanged, and the prior executed Suite 001 amendment continues to apply. The prior deliverables (underwriting-v1.xlsx and memorandum-v1.pdf) remain in the audit archive and are not replaced.

Maple Crossing is a ten-suite retail property in Columbus, Ohio, with 32,150 rentable square feet across three suite groups (Group A / Small, Group B / Standard, Group C / Large). Nine suites totaling 29,070 SF are in physical possession and Suite 010 (3,080 SF, Group A) is vacant: unit occupancy 0.9000 and area occupancy 0.9042, unchanged from the prior version. Every active lease expires 2029-08-31, so there is no rollover within the next twelve months.

Revised underwriting produces gross potential rent of \$821,400, EGI of \$783,830, NOI before reserves of \$531,078 and net cash flow of \$528,078 after the \$300-per-suite replacement reserve. Capitalized at 7.0000%, NOI before reserves indicates a value of \$7,586,830 — lower than the prior \$7,830,964 because the 25 bp cap-rate increase outweighs the \$2,488 NOI gain. Debt sizing at 7.2500% yields an LTV limit of \$4,931,440 (binding), a DSCR limit of \$5,160,720 and a debt yield limit of \$5,867,534, for a maximum loan of \$4,931,440. After the 1% origination fee (\$49,314), \$45,000 of closing costs and the \$4,300,000 payoff, net cash-out is \$537,125 — still positive, so no additional sponsor equity is required and there is no refinance shortfall.

No asking price, photographs, market sales or rent comparables, appraisal, tenant credit information or sponsor history is supplied in the packet. These remain explicitly unknown and are not estimated.

What Changed in This Revision

The table below reconciles the prior version to this revision. Unaffected facts are preserved verbatim from the original analysis.

Item	Prior version	Revised	Reason
Controlling rent roll date	2026-08-31	2026-09-01	revision-notice.pdf p1: revised roll supersedes prior roll

Item	Prior version	Revised	Reason
Suite 002 status	active	active (confirmed)	Revision notice; status unchanged in substance
Suite 002 scheduled monthly rent	\$6,800	\$7,025	+\$225 per revision notice / rent-roll-revised.xlsx E6
Gross potential rent	\$818,700	\$821,400	+\$2,700 annually
Capitalization rate	6.7500%	7.0000%	+25 bps per revision notice
Sizing rate	6.5000%	7.2500%	+75 bps on the initial sizing rate (note 6.5000%; floor 6.00% still not binding)
UW EGI	\$781,265	\$783,830	Higher GPR, 5% loss unchanged
UW NOI before reserves	\$528,590	\$531,078	+\$2,488 net of the 3% management fee
UW NCF	\$525,590	\$528,078	Reserves unchanged at \$3,000
Capitalized value	\$7,830,964	\$7,586,830	Cap-rate increase dominates NOI gain
Maximum loan	\$5,090,126	\$4,931,440	LTV still binds, on a lower value
Net cash-out	\$694,225	\$537,125	Lower proceeds; payoff and costs unchanged
Occupancy, areas, expiries, expenses, LTV / DSCR / DY tests, fees, payoff	as reported	unchanged	Revision notice states all other details and rules remain unchanged

Property and Suite Mix

Suite mix and status are taken from rent-roll-revised.xlsx (Rent Roll, rows 5-14). The manager's group mapping is A = Small suite, B = Standard suite, C = Large suite. Areas and counts are unchanged from the prior version.

Group	Suite type	Suites	Occupied	Area SF	Roll monthly rent
A	Small suite	4	3	12,320	6,650 each
B	Standard suite	3	3	9,600	7,025 (Suite 002); 6,800 (Suites 005, 008)

Group	Suite type	Suites	Occupied	Area SF	Roll monthly rent
C	Large suite	3	3	10,230	7,075 each
Total	All suites	10	9	32,150	68,450 aggregate

Lease and Occupancy Analysis

Nine of ten suites are in possession; Suite 010 remains vacant. The manager's cover note headlines 9 of 10 as leased by counting occupied plus pending occupants and discloses that pending occupants have not taken possession. The revised certified detail, which controls physical occupancy, again shows no suite in a pending-possession status, so the headline coincides numerically with nine occupied suites while the methodology itself remains a disclosed overstatement practice to monitor.

Two superseded rolls are in the packet: the 2026-06-30 archive roll (stale) and the 2026-08-31 certified roll (superseded by the revision notice). Conflicts are resolved by date in favour of the 2026-09-01 revised roll; the older rolls are retained only for version comparison.

Suite 001's executed lease sets base rent at \$6,650 per month on 3,080 SF with a \$13,300 security deposit and no free-rent concession as of the evaluation date. The signed amendment (both parties executed 2026-07-20, effective 2026-08-01) adds \$350 per month and, per the revision notice, continues to apply, so Suite 001 in-place rent is \$7,000 per month. There is no unsigned rent proposal in the packet. Annual in-place rent for occupied suites is \$745,800, up \$2,700 from the prior version on the Suite 002 increase.

Per instruction, underwritten gross potential uses all-suite scheduled rent on the controlling roll (\$68,450 per month x 12 = \$821,400) before the Suite 001 amendment; the amendment affects in-place rent only.

Historical versus Underwritten Financials

Historical figures are unchanged: the trailing twelve months ended 2026-08-31 is a cash statement of actual collections and is not an annualized rent roll. Reported T12 NOI of \$507,593 excludes any management fee and replacement reserves. The roof replacement is a capital improvement carried at \$0 in repairs, so no capital cost is embedded in reported operating expenses. Revised underwritten NOI before reserves exceeds reported T12 NOI by \$23,485.

Reimbursement income is already included in the prescribed income assumptions and is not counted twice.

Line	T12 actual (9/1/25-8/31/26)	Revised underwritten	Prior underwritten

Valuation, Debt Sizing and Sources / Uses

NOI before reserves is capitalized at the revised 7.0000% rate, giving a value indication of \$7,586,830. This is an income-approach indication only; no appraisal, asking price or sales comparables are supplied.

Sizing uses the revised rate of 7.2500% (initial sizing rate of 6.5000%, being the greater of the note rate and the 6.00% floor, plus the 75 bp revision increment) on a 30-year monthly amortization schedule, notwithstanding the first 24 months of interest-only payments. The LTV test continues to bind.

At the \$4,931,440 maximum loan, annual debt service is \$403,693, NCF DSCR is 1.3081x and NCF debt yield is 10.71%. Both remain above the 1.25x and 9.00% minimums, so value rather than cash flow remains the constraint; however, DSCR headroom narrowed from 1.3613x because of the higher sizing rate.

Test / item	Revised	Prior	Detail
Capitalized value	\$7,586,830	\$7,830,964	\$531,078 / 7.0000%
LTV limit (65.00%)	\$4,931,440	\$5,090,126	binding in both versions
DSCR limit (1.25x on NCF)	\$5,160,720	\$5,543,602	\$528,078 / 1.25 / 12 / monthly factor 0.00682176
Debt yield limit (9% on NCF)	\$5,867,534	\$5,839,889	\$528,078 / 9%
Maximum loan	\$4,931,440	\$5,090,126	lesser of the three tests
Annual debt service at max loan	\$403,693	\$386,077	amortizing at the sizing rate
NCF DSCR / debt yield	1.3081x / 0.1071	1.3613x / 0.1033	both above minimums
Source: loan proceeds	\$4,931,440	\$5,090,126

Use: origination fee (1%)	(\$49,314)	(\$50,901)	
Use: closing costs	(\$45,000)	(\$45,000)	unchanged
Net cash-out to sponsor	\$537,125	\$694,225	positive; no additional equity required

Risks and Missing Diligence

Each risk is reassessed independently against the revised packet. Known source conflicts are resolved and explained rather than left unresolved. No risk conclusion changed in this revision.

Risk	Status	Basis
Pending units counted in occupancy	present	manager-cover.pdf p1 headlines occupied plus pending as leased although pending occupants lack possession; the revised roll shows zero pending suites, so the numeric effect on this analysis is nil
Near-term rollover (next 12 months)	absent	all active expiries 2029-08-31 on rent-roll-revised.xlsx F5:F14

Risk	Status	Basis
Missing insurance evidence	absent	insurance.pdf p1 policy declaration, term 7/1/2026-6/30/2027, plus expense in the operating statement
Capital cost classified in operating expenses	absent	operating-statement.pdf p1 carries the capital roof replacement at \$0 in repairs
Unsigned rent change relied upon	absent	the Suite 001 amendment was executed by both parties 2026-07-20; the Suite 002 increase comes from the certified revised roll and the revision notice, not from an unsigned proposal
Temporary free rent	absent	lease-001.pdf p1: no free-rent concession as of the evaluation date
Underwriting rate floor binding	absent	original note rate 6.5000% exceeds the 6.00% floor, so the floor never binds; the revised 7.2500% sizing rate is higher still
Refinance shortfall	absent	net cash-out is positive \$537,125 after payoff and costs

Missing Diligence and Unknowns

Legal, environmental, property condition and title reviews remain incomplete. These are routine outstanding items; no contamination, litigation, fraud or structural failure is evidenced or alleged.

Explicitly unknown, not zero: asking price, photographs, market sales and rent comparables, appraisal, sponsor history and credentials, tenant financial statements, monthly T12 detail, tenant improvement and leasing commission budgets, and any capital plan for re-tenanting Suite 010.

Sensitivity in the workbook shows that a 5% decline in gross potential rent would reduce the maximum loan and cash-out materially, and that further cap-rate expansion tightens the binding LTV test; the DSCR test would begin to bind if the sizing rate rose materially above 7.2500%.
