Property & Suite Mix

Maple Crossing is a 10-suite retail property comprising three unit types. Per the manager cover note, unit groups A / B / C correspond in order to Small, Standard, and Large suites. Suite mix, area, and current in-place rent are drawn from the revised property manager certified rent roll dated 2026-09-01. Suite 002 monthly rent is revised to \$7,025 (+\$225) per the revision notice; all other suite rents, statuses, and lease expirations are unchanged.

Type	Suite type	Suites	Occupied	Total SF	Occupied SF	Current rent / mo
A	Small	4	3	12,320	9,240	\$6,650
B	Standard	3	3	9,600	9,600	\$6,800 – \$7,025
C	Large	3	3	10,230	10,230	\$7,075
	Total	10	9	32,150	29,070	—

Lease & Occupancy Analysis

The revised certified rent roll (as of 2026-09-01) shows 9 active suites and 1 vacant suite (Suite 010). All active leases share a stated lease expiration of 2029-08-31 — no active suite expires within the next 12 months, so there is no near-term rollover risk. The manager cover headline states 9 of 10 leased using a methodology that counts occupied plus pending as leased; the certified detail — which controls per the manager's own instruction — shows no pending status on the roll. The headline's classification methodology continues to be flagged (see Risks).

Suite 001 remains subject to the fully executed amendment dated 2026-07-20 and effective 2026-08-01 (+\$350/mo). The revised roll continues to reflect the post-amendment Suite 001 rent of \$6,650. Per underwriting instructions preserved by the revision notice, UW GPR uses Suite 001's pre-amendment rent (\$6,300) as an assumption input — a deliberate conservative treatment, not a data error.

Suite 002 is revised on the new roll to \$7,025 monthly rent (+\$225 vs. the prior roll). This is an authorized revision to the certified roll, delivered as a signed instruction; there is no unsigned rent proposal in the packet.

Historical vs. Underwritten Financials (Rev 2)

Historical figures are unchanged and drawn verbatim from the T12 operating statement covering 2025-09-01 through 2026-08-31 (parentheses denote expenses). Underwritten figures reflect the revised roll and the +25 bps cap / +75 bps sizing changes. Historical NOI, underwritten NOI, and NCF remain distinct definitions and are labeled as such.

Line item	T12 Actual	UW (Rev 2)	Note
Rental & ancillary collections	\$736,830	—	T12 collections; not comparable to UW GPR
Gross potential rent (annual, pre-amendment S001)	—	\$817,200	Revised roll ×12 with S001 at pre-amendment rent
Economic loss (5%)	—	(\$40,860)	Per instructions
Other income (\$350/suite/yr)	—	\$3,500	Per instructions
Effective / Underwritten EGI	\$736,830	\$779,840	T12 shown as collections
Real estate tax	(\$85,964)	(\$85,964)	Same source figure
Insurance expense	(\$28,655)	(\$28,655)	Same source figure

Other recurring operating expenses	(\$114,618)	(\$114,618)	Same source figure
Management fee	—	(\$23,395)	3% of UW EGI (not in T12 ledger)
Roof replacement	\$0 in repairs	—	Capital improvement per T12 instructions
NOI (before reserves)	\$507,593 (reported)	\$527,208 (UW)	Different definitions
Replacement reserves	—	(\$3,000)	\$300 × 10 suites
Net cash flow (UW)	—	\$524,208	Used for DSCR & debt yield

Debt Sizing & Sources / Uses (Rev 2)

Debt is sized on the greater of the note rate and the underwriting floor, per instructions. With the note rate revised to 7.2500% (initial sizing rate +75 bps), the note continues to exceed the 6.0000% floor and is used for sizing. LTV constrains value; DSCR and debt yield are computed on NCF after reserves.

Sizing rate (MAX of note, floor)	7.2500%
Amortization	30 years, monthly (unchanged)
Loan by LTV (65% × \$7,531,540)	\$4,895,501
Loan by DSCR (NCF / 1.25 / annual DS per \$)	\$5,122,897
Loan by Debt Yield (NCF / 9%)	\$5,824,531
Binding constraint	LTV
Maximum loan	\$4,895,501
Realized LTV	65.00%
Realized DSCR (on NCF)	1.31×
Realized Debt Yield (on NCF)	10.71%

Sources & Uses at Close (Rev 2)

SOURCES	USD	USES	USD
Maximum loan	\$4,895,501	Existing payoff	\$4,300,000
Net cash-out (to sponsor)	(\$501,546)*	Origination fee (1% of loan)	\$48,955
		Closing costs	\$45,000
Total sources	\$4,393,955	Total uses	\$4,393,955

*Net cash-out is shown as a source (surplus proceeds to sponsor after payoff, fees, and closing costs). Per instructions, a negative value would indicate additional equity required; Rev 2 still produces a positive \$501,546 to sponsor (down from \$657,328 in Rev 1 due to +25 bps cap and +75 bps sizing rate).

Sensitivity — Capitalization Value (Rev 2)

Cap rate	6.2500%	6.5000%	6.7500%	7.0000% (base)	7.2500%	7.5000%	7.7500%
Value	\$8,435,325	\$8,110,889	\$7,810,486	\$7,531,540	\$7,271,832	\$7,029,437	\$6,802,681

Risks & Missing Diligence (Rev 2)

Each item is assessed independently as **present**, **absent**, or **unresolved**. Assessments describe the source packet's condition, not downstream calculation choices. Standard third-party diligence (legal, environmental, property condition, title) has not been completed per diligence-status.pdf; this is routine pending diligence, not a finding of a defect. No evidence of contamination, litigation, fraud, or structural failure is supplied and none is asserted.

Risk	Status	Assessment
risk_pending_in_occupancy	present	Manager cover headline counts occupied + pending as leased (9 of 10). Revised certified detail shows no pending status; classification methodology is unchanged from Rev 1 and remains flagged.
risk_near_term_rollover	absent	All 9 active suites expire 2029-08-31 — more than 12 months beyond the 2026-09-01 evaluation date.
risk_missing_insurance	absent	Insurance policy in force (2026-07-01 to 2027-06-30) per insurance.pdf; T12 shows \$28,655 recurring insurance expense.

risk_capital_in_opex	absent	Operating statement shows roof replacement booked in repairs at \$0 — properly capitalized.
risk_unsigned_rent_change	absent	No unsigned rent proposal is present in the packet. Suite 001 amendment is fully executed; Suite 002 revision is an authorized signed instruction (revision-notice.pdf).
risk_temporary_free_rent	absent	Lease excerpt states no free-rent concession applies as of the evaluation date.
risk_sizing_floor_binding	absent	Revised note rate 7.2500% exceeds floor 6.0000% — note rate binds; floor is not binding.
risk_refinance_shortfall	absent	Maximum loan \$4,895,501 exceeds payoff \$4,300,000 + fees \$93,955; net cash-out is a positive \$501,546.
